

US EPA ARCHIVE DOCUMENT

Early Planning Guidance for Ozone/PM NAAQS

Ozone Designations

- Governors' recommendations due by July 1999
 - Nonattainment or attainment/unclassifiable
 - Use 1996-1998 data
- EPA designations by July 2000
 - Use 1997-1999 data

PM2.5 Designations

- Monitor installation to be complete by Dec 1999
- 3 years data from all monitors by 2003
- Governors' recommendations due 1 year from receipt of 3 years data
- EPA designations by 1 year from due date for Governor submittal or by Dec 2005

PM10 Designations

- Governors' recommendations due by July 1998
 - Nonattainment, attainment or unclassifiable
 - Use best available information
- EPA designations by July 2000
 - Use 1997-1999 data

Section 110 SIP

- Section 110 SIP submittals due by July 2000
- Section 110 SIP covers air program "infrastructure"
- Existing section 110 SIPs may be adequate
- States should review SIPs to ensure they are adequate
 - EPA has notified States to start process
 - States will have to certify adequacy to EPA or revise SIP

Section 110 SIP

- Adequate section 110 SIPs needed in 3 areas for old PM10 standards to be revoked:
 - Emission inventory
 - PM monitoring network
 - Modeling
- Additional section 110 SIPs required:
 - NOx SIP call
 - Emergency episode provisions
 - Regional haze program
